

Friedman omnibus NOT significant ($p = 0.055$) - rank order is descriptive only
 Rank slopegraph - migraine AUROC ($n_{\text{cells}} = 9$)

Ranks order per-cell point estimates; a crossing smaller than the critical difference (see CD diagram) is not a significant difference.

Excluded (incomplete cell coverage): add0_stacked, add1_tabPFN, add4_window_mlp, pooled_lr, tabPFN:v2-5-auto
